

Islington Community Flu Vaccination Clinic Dates for School Aged Children

- Despite schools closing we're still working hard to deliver the school aged flu vaccine programme in Islington, and **extra clinics within the community are being organised**.
- Children are **super spreaders** of flu, which is why we offer the flu vaccine free to all children from reception to year 7.
- Getting your children vaccinated is the best way to protect the more vulnerable members of the community against flu.
- **Both the nasal spray, and a non-porcine alternative are available** at all of the catch up clinics run by Vaccination UK.
- Book in today to ensure your family is protected before Christmas.

To ensure clinics are COVID safe, **BOOKING IS ESSENTIAL**: for more information or to book an appointment please contact haringeyandislington@vaccinationuk.co.uk or call **0208 017 7925**
